

## Applications of RAINPAULIN®

We are the well known manufacturers and exporters of a wide variety of **RAINPAULIN®** PE tarpaulins, **RAINPAULIN®** PE woven fabric, woven sacks and other related products. Our extensive product range finds application in different industries for the purpose of protection of their material.

- It's water proof and also weather proof that means No leakages, No humidity and No attacks from Microbes or Fungus. Works as the best temporary tents and coverings.
- Is resistant to ultraviolet exposure
- **RAINPAULIN®** available in 125 gsm, 150 gsm, 200 gsm, 250 gsm, 340 gsm and above also.
- **RAINPAULIN®** protect from Rain for covering trucks, railway wagons and industrial machines and their valuable materials.
- Moreover, **RAINPAULIN®** Tarpaulin is flexible and tear resistance because the high tensile strength and high elongation makes the Tarpaulin extremely flexible, so the Tarpaulin is ideal for covering odd shaded objects and can be used to cover blunt or solid objects.
- Also compared to cotton Tarpaulins, **RAINPAULIN®** Virgin Tarpaulin is far more economical and it is also available in an attractive range in colors and quality.
- Works as the best pool covers to protect your pool from snow and dust.
- Floor lining for storage or stacking railway wagon covers.
- Ground work sheet, transportation.
- Water proof liner for trucks, tempos, warehouses, sheds, etc.
- Grain Storage & Agriculture activities fumigation covers, poultry shading.
- Construction sites - covering for cement bags, equipment, metal rods etc.
- Curtains for unfinished buildings.
- In various packaging industries.

## Monsoon shed

Backed by years of experience, we construct sheds covered with Waterproof Tarpaulins, either on HIRE BASIS OR ON OUTRIGHT BASIS we can construct the sheds exactly as per your design and specifications. Our experts are always available to inspect the site, assess the requirements, design the sheds and construct them perfectly and satisfactorily to suit requirements. We have the privilege of having constructed such high class sheds for leading public and Private Sectors, Govt Organisation, Food Complexes,

Warehouses, Hotel and other organizations, where protection is most essential against the unpredictable weather. We have specialised in the construction of Monsoon sheds and can give you excellent sheds with day and night services promptly and satisfactorily. A systematic plan is prepared before the commencement of work for proper designing to take care of strength, economy, smooth and quick movements and also completion of target by the highly skilled experts with vast years of experience behind them.

## DURABILITY & FLEXIBILITY

We are adding Ultra Violet (UV) Stabilizer for durability and we stand guarantee for the quality and durability of the product. This also controls degradation due to weathering effect and ultraviolet sun-rays. Various Additives used by us to improve flexibility of the product, which minimizes cracking due to long usage

## TRUSTED SUPPLIER

We are one of the trusted suppliers of tents and tarpaulins to various government departments, merchant exporters, NGO's, commercial buyers etc., in India and abroad. We specialize in meeting emergency bulk orders during disasters, natural calamities and other emergencies.

## WIDE NETWORK

In our efforts to facilitate product availability to all our customers across industries, we have developed a strong marketing network all over India-covering both private sector and public sector.

## EXPORT

A year is a short time, we agree, but we have achieved tremendous popularity for our product. This popularity for our product prompted us to enter into export market too. We are now not only a MANUFACTURER of this popular product but also registered ourselves as a successful EXPORTER.

## Customer's Satisfaction

We religiously follow every required measure to achieve maximum customer's satisfaction. Our products are thus of high quality and are delivered to our clients effectively within a stipulated time frame. Everyone at our organization is customer centric in his approach and wants to offer the client best value for his money. Our products are ISI certified, which itself speaks about the quality of our product range. We offer highly customized products to our clients meeting all specification from their end. Through providing easy payment modes, ethical business practices and timely delivery of our range, we have been able to garner a wide client base across African and European countries.

## Why Us?

The demand of our offered **Tarpaulins and Allied Products** is day by day increasing across the world, owing to their durability, ability to withstand extreme weather conditions and resistance against puncture. With an aim to ensure the same, we manufacture the offered array using optimum quality raw material, sourced from the vendors of high prestige. Moreover, we also ensure that our patrons receive the consignment at their premises within committed delivery schedule. To win their trust, we follow ethical business policies and provide them the products as per their required specifications. We have a huge infrastructure facility, supported by which we are able to cater to the bulk orders of the patrons.

## RAINPROOF EXPORTS PVT. LTD. Manufacturers & Exporters

## About Us

We – RAINPROOF EXPORTS PVT LTD, have an extensive experience in the manufacture and export of Rainproof brand PE tarpaulins, PE/PP woven fabric, woven sacks, tents & other related waterproof products. Incorporated in 1995 by Mr. Prakash Thakkar (M.D.), Further realizing the industrial advantages of plastics and polymer lamination, we started manufacturing of various Polymer based products to meet the requirements of our huge clients.

Presently, we are manufacturing tarpaulins ranging from 90 gsm., to 700 gsm in various colours and sizes using our advanced manufacturing techniques. Ours is one of the biggest infrastructures to manufacture PE Tarpaulins in India. Moreover, we are one of the few manufacturers to produce wide width tarpaulins. We are an ISO 9001:2008 (Quality Management System) certified company.

## Our Policy

We adhere with the policy of providing superior quality and materials at the most competitive prices to all our customers by adopting advanced technology and achieving maximum economy through automation.

## Achievements

**Mr. Prakash Thakkar (M.D.) was honoured at the USASIA Business Expo & Global Venture Awards held in Mumbai.**

## Geomembrane Pond Liner

This pond lining is made strictly as per IS: 15351: 2015 standard having very high strength values and UV stabilisation for long outdoor exposure. We are a valid licence holder (issued by Bureau of Indian Standards) and manufacturer for this item as per IS : 15351: 2015 specifications. We are approved by BIS to manufacture pond lining in type 2 (420 grams per square meter minimum)

## Process of Manufacturing of RAINPAULIN Tarpaulin

### 1 Tapeline

Our Tapeline is capable of producing the high quality of HDPE/PP Tapes with state of art technology to comply with international standards for performance and quality output.

### 3 Lamination Plant

The unique lamination plant (Made in Taiwan) of 2.3 meters in width and which gives an even thickness of minimum 12 micron. This state-of-the-art machine achieves an international quality inch to inch in RAINPAULIN brand.

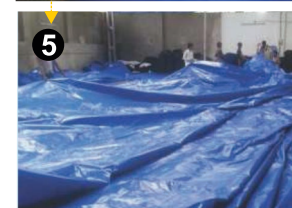

### 2 Circular Looms

Our looms are capable for producing weaving light & heavy or flat PP/HDPE fabrics. It has the advance technology with higher efficiency along with excellent weaving quality used for tarpaulins and Geo and Agro Textiles. The looms are from Lohia Starlinger

### 4 Seven Head Sealing M/c with Auto Cutter (Made in Korea)

The process involves the production of Laminated fabric with the help of Laminating extrusion machine followed by Roll form, which automatic cut into required length and width for manufacturing tarpaulin in different sizes.

## Quality Control

The quality achieved and maintained through continuous 'R&D' meets the norms and needs of the international standards.

We do extensive Quality Testing for our Products. Below mentioned equipments are used for Testing Purposes.

## HDPE Woven Fabric & Laminated Fabric

The HDPE woven fabrics offered by us are to cater the needs of customers based both in India and abroad. These HDPE fabrics are also cost effective and durable in finish and are made available at very competitive prices.

We have with us vast and extensive experience in making available high quality Laminated Woven Fabrics. Their superior construction standards make them well used for wrapping of end products like tyres, steel coils and other industrial products. Further, with the fabric layers coming treated with UV stabilizers, we are also able to provide in these excellent protection and longer service life.

## RAINPAULIN® Laminated Tarpaulin

We offer tarpaulins in cut sizes as well as in full and finished sizes.

These tarpaulins are very tough because of multiple structured layers

due to which the durability is very high; especially suitable for rugged / rough use.

We have successfully emerged as one of the leading name in the field of manufacturing & export of tarpaulin products.

A Tarpaulin is a large sheet of strong, flexible, water resistant or waterproof material. Tarpaulins often have reinforced AI- Eyelets at the corners and along the sides heaming with rope duly heat sealed. HDPE Tarpaulins normally used for the protection from rains and heavy sunlight. **RAINPAULIN®** is not a traditional fabric, but rather a laminated of woven and sheet material. HDPE woven fabric made with LDPE and made into desired size and shape.
